

Bioinformatician / Protein designer

Open position

Enantis is looking for a motivated candidate for the position of Bioinformatician/Protein designer to join our expanding bioinformatics team. Together, we can revolutionize human health and sustainability.

We design smarter proteins for future needs of society!

Key responsibilities

- **Design innovative proteins** using our cutting-edge **proprietary software** combined with **external tools**
- **Develop, implement, and optimize** our state-of-the-art computational biology pipeline
- Collaborate in **dynamic brainstorming sessions**, where **new ideas** and **capabilities** are forged
- Showcase your expertise by presenting **reports** internally and engaging in **scientific discussions** with clients and partners
- Build a strong partnership with our **protein engineering team**, leveraging **in-silico approaches** derived from experimental results

Desired qualifications

- University education in **bioinformatics, biochemistry**, or a related field (PhD preferred)
- General **structural biology** and **bioinformatics** skills
- Familiarity with **molecular dynamics** simulations and **virtual screening techniques**
- Experience in **protein structure prediction** and **visualization**
- Navigate the **Linux/Unix** environment seamlessly, like a seasoned explorer
- **Programming/scripting** skills
- Articulate your thoughts and ideas effectively in written and oral **English**
- Embrace learning, exhibit **independence**, demonstrate **reliability**, and thrive in a collaborative **team environment**

Bioinformatician / Protein designer

Open position

What can we offer?

- **A full-time employment** opportunity to make a lasting impact
- Healthy **work-life balance** with sick days, meal vouchers, flexible working hours, home office days, and sports/leisure benefits
- **International, innovation-driven environment**, fueling your creativity alongside a vibrant and **open-minded team**
- Join a **multidisciplinary workgroup** dedicated to finding solutions for a **sustainable future**, as we shape a better world

How to apply?

- Ready to embark on this transformative journey? Submit your **CV and motivation letter** to Milada Sára Poledňáková at polednakova@enantis.com
- Stand out from the crowd as **selected candidates will be invited for an interview**
- The starting date is **negotiable**, and the **application deadline is June 26th 2023**
- **Contact for more information:** Ezequiel Ivan Juritz, CTO Enantis, juritz@enantis.com

Let your passion for bioinformatics and protein design soar with Enantis — an opportunity to redefine possibilities and leave an indelible mark on the world.
